Babak-

Good to meet you; actually just met with another Persian this morning regarding some things. Let me know what I can help you with; I've got a lot of people in-country who are either active Anons or who are working with me and my org, Project PM, on related efforts. I also have a stream of info coming in. You can call or e-mail at any time and I'll get it immediately. Having said that, e-mail me at my secure address, transistor@hushmail.com, and try to do so from another hushmail account or similarly secure e-mail server.
